EDUCATION

RNS INSTITUTE OF TECHNOLOGY

CSE-Data Science Bachelor of Engineering

CGPA: 8.1

Bengaluru,Karnataka

Sept 2023 - Sept 2027

Tungal Ind PU Sci College

PCMCS Pre University

Percentage: 89.5%

Vijaypur,Karnataka

2021 - 2023

SKILLS

Programming Languages: c++, C, Python

Tools / Platforms: VS code, Gen AI, LLM, RAG model

Databases: SQL, MongoDB, DBMS

PROJECTS / OPEN-SOURCE

House Price Prediction

Linear regression,Data cleaning,ML,python

Developing a House Price Prediction ML model using Python and scikit-learn. Performed data cleaning, feature engineering, and exploratory data analysis, and trained regression models to estimate real-estate prices. Currently optimizing the model for improved accuracy and real-world usability.

Attendance tracking system

python,sql

Built an Attendance Tracking System to automate the process of recording and managing attendance.

The system allows users to mark daily attendance, view records, and generate reports. Implemented features such as user authentication, data storage, and summary generation to reduce manual errors and improve record accuracy.

CERTIFICATIONS

- Algorithms for searching,sorting,and indexing - **Coursera**
- Introduction to SQL - **Coursera**
- Generative AI professional - **Oracle**
- Introduction To Embedded System Software - **Coursera**
- Data Analytics Job simulation - **Deloitte**
- Technology Job Simulation - **Deloitte**
- Data Visualisation - **Coursera**
